

Technical Data Sheet

Product Name: γ -AMINOBTYRIC ACID

Molecular Structure:

Formular:C4H9ClNO2

Molecular Weight:103.1

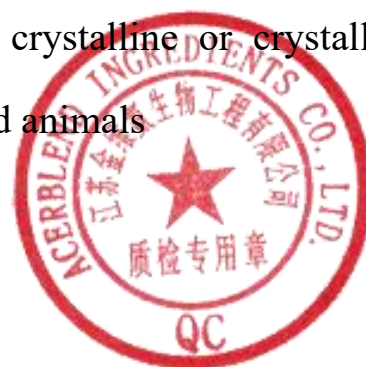

CAS NUMBER:56-2-1

Use:for food additive

Description:White crystals or crystalline powder

Explain:This product is colorless,odorless,non-toxic,white crystalline or crystalline powder,non-flammable,non-explosive,harmless to people and animals

Content:100%

2026.1.5
