No endocrine-disrupting properties have been identified based on the information available.			
Section 3 Composition, Information on Ingredients			
Component		Ratio	Country of origin
L-Glutamine		100%	China
Section 4 First Aid Measures			
4.1 Inhalation: Move the person to fresh air and keep comfortable for breathing. Obtain medical advice if symptoms persist. Skin contact: Remove contaminated clothing and rinse skin with water. Wash hands after handling. Eye contact: Rinse cautiously with clean water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Seek medical advice if irritation persists. Ingestion: Rinse mouth. Give water to drink if the person is conscious. Do not induce vomiting. Seek medical advice if unwell.			
4.2 Most important symptoms/effects: No significant acute effects are expected under normal use. Airborne dust may cause temporary mechanical irritation.			

4.3 Immediate medical attention: Treat symptomatically. No specific antidote is known.

Section 5 Fire-Fighting Measures

5.1 Suitable extinguishing media: Water spray, alcohol-resistant foam, dry chemical powder or carbon dioxide. Select media appropriate to the surrounding fire.

5.2 Specific hazards: Combustible solid at elevated temperature. Thermal decomposition or fire may produce carbon oxides and nitrogen oxides. Fine airborne powder may present a dust-explosion hazard.

5.3 Advice for firefighters: Wear self-contained breathing apparatus and appropriate protective clothing. Prevent contaminated firefighting water from entering drains or surface water.

Section 6 Accidental Release Measures

6.1 Personal precautions: Avoid dust formation and inhalation. Ensure adequate ventilation. Wear suitable eye protection and gloves; use respiratory protection when dust cannot be adequately controlled.

6.2 Environmental precautions: Prevent release to drains, surface water and soil.

6.3 Containment and clean-up: Collect by low-dust mechanical means or with an industrial vacuum fitted with an appropriate particulate filter. Place in a clean, labelled container for recovery or disposal. Clean the affected area with water after dry material has been collected.

Section 7 Handling and Storage

7.1 Safe handling: Avoid generating dust. Do not breathe dust. Use local exhaust ventilation for transfer, milling or blending operations. Keep away from ignition sources and prevent electrostatic accumulation where dust clouds may form. Follow good industrial hygiene practice.

7.2 Storage conditions: Keep container tightly closed in a cool, dry and well-ventilated place. Protect from moisture, excessive heat and contamination. Store away from strong oxidising agents.

Section 8 Exposure Controls/Personal Protection

8.1 Exposure controls Engineering controls: Local exhaust ventilation to control airborne dust. Individual protection measures: Respiratory protection: Disposable dust mask when dust appears. Hand protection: Nitrile / rubber protective gloves. Eye protection: Safety goggles if dust handling in large volume. Skin protection: Standard work clothing.

Environmental exposure controls: Prevent uncontrolled discharge to environment.
